Subject: Fw: QA/QC Review of Cabot Data at Dimock

Here's the connection information. Maybe try with a different computer???

This was a problem in the very beginning and I don't know why it happen but it went away without assistance. There is a help desk for the FTP site so give them a call to see why this is happening.

I will be out of internet service until this evening. I'll have blackberry but probably won't be able to do any uploading since can't use the computer.

Good luck. Or it can wait until Monday :)

Fred, Here are the instructions to get to the data files. there is a general folder called Dimock. the Cabot data is under a subfolder called 104 submissions, or something like that. from there, you are on your own to look at the files and then save them back onto your computers.

If you have any problems with transfer, etc. please contact Steve Davis

Thanks for the help !!!

Rich

Rich,

We can do it! Send me the access information and we can take a look to see what they got and how good it is. I am not that familiar with the EPA FTP site.

Fred

Fred,

We have received a lot of data in response to a 104(e) letter. I would like the QA/QC reports reviewed. Do know who could provide us with that support? The data resides on an EPA FTP site.

Thanks.

Rich
